

Program and Portfolio Management Certification (PPMC)[®] - 32 PDUs

Lead enterprise-level execution. Translate strategy into results.

The Program and Portfolio Management Certification (PPMC)[®] is an *advanced*, experiential-based leadership program designed for senior project, program, and PMO professionals who drive organizational strategy. In four immersive days, you'll learn how to translate strategic vision into actionable, measurable results - by designing, prioritizing, and governing the initiatives that matter most.

Led by Bill Stewart, founder of PMLG and architect of the PMO concept, the PPMC[®] equips you to build an enterprise-wide portfolio that delivers value, alignment, and transparency from the top down.

Why It Matters

Most organizations struggle not with strategy—but with execution. The PPMC[®] bridges that gap, giving leaders the practical tools, mindset, and hands-on experience to ensure that every project and program advances strategic goals and delivers measurable results.

You Will Learn To

- ✓ Align Strategy and Execution
- ✓ Govern with Transparency
- ✓ Transform Your Organization to *Strategic Execution Excellence*[™]

"The PPMC[®] program was a truly powerful and transformative experience. It went far beyond traditional PMO training—immersing us in real-world challenges that reshaped how I lead. I left feeling empowered to drive alignment between business and IT at a strategic level."

-PMO Director, Operations

Program Format

HANDS-ON. ENTERPRISE-READY. RESULTS-DRIVEN.

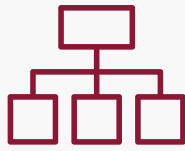

The PPMC® isn't an exam or lecture - it's a *leadership lab*. You'll work through a complete portfolio case study and real-world scenarios to immediately apply what you learn.

Strategize

Define the vision and roadmap for portfolio excellence.

Inventory projects, identify maturity fills and gaps, and align every initiative to strategic goals.

Plan & Govern

Design governance and decision-making structures.

Create intake and prioritization models, stage gates, and balanced portfolio frameworks.

Execute & Coach

Lead program managers through experiential simulations.

Apply the Magic Eight™ tools to strengthen planning, risk control, and communication.

Realize Value

Measure outcomes and sustain accountability.

Track benefits, manage resources, and deliver portfolio dashboards that show true ROI.

Program Highlights

Magic Eight™ Toolkit

Proprietary set of practical tools to mitigate the top causes of project and program failure.

Governance & Decision Support

Apply templates for governance committees, stage gates, and portfolio metrics.

Strategic Portfolio Design

Link projects and programs to enterprise goals through structured intake, prioritization, and balancing techniques.

Benefits Realization & Reporting

Track ROI and communicate portfolio value using executive dashboards and stoplight reports.
